## A TRIBUTE TO FREEMAN GOSDEN; by Charles Holmes

Another link with the past, with what accurately is called the Golden Age of Radio, was lost with the death of Freeman F. Gosden, 83. Gosden passed into eternal rest Dec. 10...Even in his heyday, Mr. Gosden's name was not a household word, but the names of some of the characters he created were. His brainchild, the AMOS 'N ANDY comedy program, was one of the most popular and longest-running shows on radio. It first was broadcast coast-to-coast (as the announcers used to say with pride) in 1929. By the mid-1930s it had become a national institution. It was on the air then 5 nights a week. Stores, restaurants and bars turned their radios on at 7 p.m. to keep from losing customers. Movie theaters interrupted their showings and wheeled radios on stage so patrons could catch the latest episode.

Gosden not only wrote the show but also starred as Amos. His partner Charles Correll, who died 10 years ago, played the role of Andy. Formally they were Amos Jones and Andrew H. Brown, long-time friends and operators of the Fresh Air Taxi Co. in Harlem. The program was a forerunner of what now is called sitcom but it always was in a class of its own...Freeman Gosden peopled AMOS 'N ANDY with unforgettable characters and did the voices of several himself, in addition to the role of Amos. There was George Stevens, otherwise known as the Kingfish, head of the Mystic Knights of the Sea lodge and radio's original con man. There was the slow-footed, slow-talking lawyer, Algonquin J. Calhoun. There were Amos's wife, Ruby and Madame Queen and Andy's secretary, Miss Blue.

There were many other equally entertaining characters who came and went with the passing of the years - 31 years to be exact. The show went off the air in 1960 under pressure from the NAACP and other civil rights organizations which complained that the Negro dialect Gosden and Correll (both white) used was demeaning and charged that the show's format was an insult to the Negro race.

These allegations overlooked the fact that contemporary radio programs featured characters who capitalized on German or Italian accents or otherwise exploited ethnic differences. Those allegations also overlooked the fact that Amos was portrayed as a hard-working black, a loving husband and devoted father, a churchgoer who believed in the basic goodness of his fellow man. His patience was sorely tried at times by Andy, his gullible partner, who was given to fancy clothes, big cigars and big ideas - but who also had a big heart when it came to small children, dogs and down-and-outers.

AMOS 'N ANDY was not funny because the characters were portrayed as blacks. It was funny because the scripts were clever, the situations humorous and the characters drawn from real life. The program did not denigrate. It looked, in a special way, at the foibles and the virtues of people and what it saw made you laugh or cry. All comedy is exaggeration, in varying degrees. AMOS 'N ANDY was no exception on that score, but it was exceptional in other ways.

It made millions, gathered around their radios in living rooms across the land, laugh in a Depression decade when there was not too much for most people to laugh about. Without ridicule, without rancor, without vulgarity it enabled listeners to escape for a few minutes each night the harsh realities of life.

Freeman Gosden and Charles Correll said time and time again they meant to hurt no one's feelings, that they had only respect for blacks. They wanted only to entertain and they did. Listening to them, laughing with them, you could let your imaginations run free, unfettered by the limitations of a 25-inch screen. AMOS 'N ANDY made the transition to television in the 1950's and lasted a few years, but the show never was quite the same as the one you heard on your Majestic radio at 7 o'clock back in the 1930s
